

### Envisage training

#### Introduction

Envisage is an advanced visual information system that combines health awareness with communication and patient call. Communicated via an LCD screen, Envisage messages offer clear, concise and targeted presentations of health and practice information to patients whilst they wait for their appointments.

Envisage seamlessly integrates with both EMIS LV and PCS.

#### What training is available?

The half day on-site course has been designed to provide training on the Envisage patient call system. Practice staff participating in the course can learn how to benefit from all the available functionality, and use the system effectively and efficiently.

#### Who should attend?

IT managers, practice managers and senior receptionists who are responsible for supporting/ maintaining facilities on the EMIS network and users of the patient call system would all benefit from attending the training.

#### Objectives and learning outcomes

Delegates will have an opportunity to learn about the key features of Envisage and understand how to use the following modules:

- administrator
- clinician
- call active patient
- reception
- media scheduler

#### How do I book training?

It is vital that you have training from a reliable/ official source to ensure that the quality of the information is consistent, correct and up to date. EMIS has achieved 70 per cent 'excellent' and 28 per cent 'good' feedback from delegates who have attended EMIS training.

Don't teach yourself bad habits; training will confirm, consolidate knowledge and improve your confidence in learning new skills. Don't miss your opportunity to learn more about your Envisage system.

- Half day on-site training **£305**
